

SHOAIB KHALID

FULL STACK WEB DEVELOPER | REACT, REDUX, NODE, REACT NATIVE

MEHERBAN COLONY, ROYAL AVENUE, CHATTA BAKHTAWAR, ISLAMABAD, PAKISTAN

SUMMARY

I have kept myself immersed in React ecosystem for last one year. The projects that I have worked on involve survey-collection, streaming content, navigation, payment-handling, authentication, server-side rendering, and smart contracts. Currently, I am looking for a job that can help me bootstrap my career and enhance my skills as a full-stack web developer.

INTERESTS

Artificial Intelligence
Ethereum
Augmented Reality
Assassin's Creed

LANGUAGES

ENGLISH – fluent, read/write
URDU – native, language
PUNJABI – fluent, read/write

PROJECTS

STREAMS

A site to create new live streams, and to view the streams of other people. It's a full-stack app, as it uses two servers: one is a RESTFUL API to handle the incoming requests on the website, and the other is a Real-Time Messaging Protocol Server to create new streams via OBS.

EMAILY

It enables clients to purchase credits on the site. The credits can be used to send surveys to a list of emails to collect feedback from users. SendGrid is used to send bulk emails, and Stripe is used to do payment handling.

WUNDER-ART

A portfolio website designed for a local indie artist. It has the famous Masonry Layout implemented in React on the client side. To navigate around the pages, it uses React Router Dom.

KICKSTARTER-ETH

Kickstarter-like project developed with a smart contract for Ethereum Network. It allows backers to crowdfund a project with the blockchain security of their funds being spent only as specified in the contract.

JOBS-RN

A React-Native project to find jobs in a specific area on Google Map. The app uses a Github Jobs API to search jobs for the given longitude and latitude, and it uses Google's Maps SDK to display a Map in the App that allows the users to do basic map-related stuff.

TECHNICAL SKILLS

React, Redux, Node JS, MongoDB, MySQL, React Native, CSS and Git

EDUCATION

COMSATS UNIVERSITY, ISLAMABAD
Bachelor's in Computer Science

Divisional Public High School & College, Faisalabad
Intermediate (Pre-Engineering)
Mathematics, Physics and Chemistry

Super Comprehensive High School, Faisalabad
Matriculation in Science
Mathematics, Physics and Biology
